

## Service Committee Minutes

Honorable Council  
City of Newark, Ohio  
November 12, 2014

There was a meeting of the Service Committee in Council Chambers on Monday November 10, 2014, immediately following the Finance Committee. These members were present:

Bill Cost Jr.	Ryan Bubb
Jeff Rath	Alex Rolletta
Jeremy Blake	

We wish to Report:

1. **Resolution No. 14-91** approving and ratifying an updated solid waste management plan was discussed.

**Roger Loomis-** as you may or may not know we are part of the Coshocton Fairfield Licking Perry Solid Waste District. They assess fees on the solid waste that gets discharged to the landfills in our four county areas. The solid waste management plan has to be updated every five years and this is the update to that plan. It has to be ratified by the city. The goal of the district is to reduce the amount of solid waste that goes to the landfill. There is no increase in fees in this plan so they are the same as they were in the last five year plan.

**Mr. Cost-** do we have a copy of this plan?

**Roger Loomis-** a copy is available if you would like it. I can get that to you. The electronic copy I can make available on our website

**Mayor Hall-** it is about 270 pages long which is why we didn't attach it

**Mr. Blake-** can you email a link to us

**Roger Loomis-** I can email you the link and the summary.

**Motion by Mr. Rath to send to full Council, second by Mr. Bubb**

**Motion passed by a vote of 5-0.**

**Bill Cost Jr, Chair**
