

Personnel Committee Minutes

Honorable Council
City of Newark, Ohio
August 31, 2016

There was a meeting of the Personnel Committee in Council Chambers on Monday August 29, 2016 following the Capital Improvements Committee with these members in attendance:

Ryan Bubb, Chair
Alex Rolletta
Doug Marmie
Dee Hall
Curtis Johnson

We wish to Report:

1. **Ordinance No. 16-34** an ordinance amending the position classification, pay range, and position authorization tables of the Department of Public Service, Division of Traffic Control and Division of Street Maintenance by creating one additional classification of Streets/Traffic Control Operations Manager was considered.

Director Rhodes- a couple of years ago we came in and we realigned the Street/Traffic Department. We actually eliminated the position that I am proposing tonight. At that time I believe the position made \$62,000.00 a year and we wanted to give a new model a new try. After a couple of years of looking at the new model there is a real void there for another management position. Although I don't believe the level of management position there is \$62,000.00 a year that is why we have put the salary in there are \$47,000.00. Still a little amount of savings but with the amount of work that we have going on with Street and Traffic. We have some pending legislation with Street ad Traffic Technicians; we will be adding those two employees. We feel this position is needed. Now in this legislation it does not fund this position, funding would come at a later date. Maybe next year's budget as we look at it. This does nothing more than create the position. We won't be able to hire anyone. If we find at the end of the year we have some dollars we can appropriate it to I will have to come back to the Finance Committee and ask them to appropriate those.

Motion by Mr. Marmie to send to full Council, second by Mr. Johnson

Motion passed by a vote of 5-0.

Ryan Bubb, Chair
